

**CERTIFICATE OF REGULATORY CONFORMITY TO the REACH Regulation
(EC) N°1907/2006
at product level
Part 1**

We, the undersigned company

BioAssoberg

certify that all the substances contained in the product delivered under the Trade name :

Organic Bergamot Essential Oil

Are in compliance to all the applicable requirements of the REACH Regulation
(EC) N°1907/2006 and its modifications and updates .

**CERTIFICATE OF REGULATORY CONFORMITY TO the REACH Regulation
(EC) N°1907/2006
at substance level
Part 2**

modification date

28-set-08

name of the commercial product

Organic Bergamot Essential Oil

Substances IUPAC names please no INCI names	EINECS / ELINCS / NLP / EC number(s)	CAS Number(s)	Mean concentration in the product %	Exemption if any	Type of substances	(pre)-registration number or reception date for the (pre)- registration number	registration deadline	rôle of the company in the supply chain	comments
Bergamot, ext.	289-612-9	89957-91-5	100%		multiconstituent	05-2118386743-30-0000	2018	manufacturer	
Bergamot, Citrus	296-429-8	92704-01-3	100%		multiconstituent	05-2118504267-46-0000	2018	manufacturer	
Bergamia melarosa, ext									
Citrus bergamia communis, ext	297-821-1	93763-04-3	100%		multiconstituent	05-2118508170-57-0000	2018	manufacturer	

for polymers, please fill in this part in completion with the above part of the composition

polymer IUPAC names please no INCI names	EINECS / ELINCS / EC number(s) if relevant	CAS Number(s) if relevant	Mean concentration in the product	Naturally occurring polymer	all the Monomers and other substances are (pre)-registered in the supply chain	rôle of the company in the supply chain	comments

3
total polymers + non polymers =100%

Note to clarify the entries of the spreadsheet

- (1) Please Provide information submitted to EChA for the (pre)-registration dossier.
- (2) Total must be equal 100%
- (3) Please provide:
entry number of annex IV
or paragraph entry number of annex V
or production/importation tonnage in Eu<1t
or no production/importation in EU
- (4) Please provide "UVCB, monoconstituent or multiconstituent "as submitted to EChA
- (5) Correspond to the number delivered by the EChA, after (pre)-registration submission.
If several pre-registration numbers are available (due to several legal entities), please provide the most relevant according to our supply chain.
If registration is made at early stage (during pre-registration period) or if the substance is a non phase-in substance and require a direct registration, please provide the registration number directly.
if you consider the (pre)-registration number as confidential, please provide the date of reception of this number
- (6) Please Answer "2010, 2013 or 2018" (indicate de the soonest date in case of several registration deadlines)
- (7) Please Answer "manufacturer, importer, downstream user or only representative"
if several rôles are possible for the same substance, please provide the more restrictive
- (8) Please note "Yes" if relevant
- (9) Please Answer "not relevant" if yes according to note 7, or "Yes" according to article 6.3 of the regulation:
Any manufacturer or importer of a polymer shall submit a registration to the Agency for the monomer substance(s) or any other substance(s), that have not already been registered by an actor up the supply chain, if both the following conditions are met:
(a) the polymer consists of 2 % weight by weight (w/w) or more of such monomer substance(s) or other substance(s) in the form of monomeric units and chemically
(b) the total quantity of such monomer substance(s) or other substance(s) makes up 1 tonne or more per year
